

## MISSION STATEMENT

“To promote the mastery of the essential:

- Academic skills
- Technical skills
- Employability skills

for Secondary/Adult students to be successful in the workforce and to continue professional learning.”

## PHILOSOPHY

“The Green Mountain Technology & Career Center is a community learning center committed to preparing high school students and adults for our changing technical world. The Center seeks to produce well-rounded individuals who are good communicators, effective collaborators, and assets to their communities and the business, industrial, professional, or technical career fields they choose to enter.”

## GOALS

- 1) Increase rigor and relevancy in GMTCC programming.
- 2) Increase student awareness of the value of continuing any form of professional learning beyond GMTCC.
- 3) Measure rigor in all technical programs.
- 4) Ensure appropriate professional development for all teachers, administrators and staff.
- 5) Improve ratio of non-traditional student participation and retention.
- 6) Increase significant public support for the Center, its programs and students.
